DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Bisbing (5,150,500). '500 shows a body mounting plate 26 having a spherical surface 32, a hinge plate 28 having a spherical surface 50, a door mounting member 12 having a first portion 14 attachable to a door and a second portion 60 attachable to a hinge pin, the spherical surfaces are adjustable, the spherical surface of the body mounting plate is larger than that of the hinge plate (see figure 4). As to claim 10, the process is given no patentable weight in an apparatus claim.

Allowable Subject Matter

3. Claims 1-6 and 11-13 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. This action is non-final.
